Product highlights

27mm diaphragm

The superb quality of the microphone's active diaphragm ensures you always get faithful, crisp sound reproduction.

Low noise switch

You'll not hear any annoying 'clicks' when switching this microphone on and off.

Uni-directional design

This microphone is most sensitive to sound coming from the direction of the performer, and far less sensitive to sound from all other directions. The result is clear voice reproduction with little risk of feedback from speakers on stage.

Windshield

The integrated windshield prevents disturbing noises from wind gusts or breathing too close to the microphone.

3m microphone cable

Give yourself extra freedom of movement with little risk of tripping or tangling.
